

# Ascend – Floating metal pedestal

The **Ascend** Floating Metal Pedestal is designed to meet the needs of modern workstations, providing an efficient and durable under-top storage solution that keeps the user's lower area clear. This suspended pedestal combines a sturdy steel housing with smooth metal slides and secure internal components, offering practical organization through a lockable utility drawer and a file drawer to support everyday work needs.

## Key Features

### Dimensions

11.8 x 17.7 x 17.7"

### All-metal construction

- 20-gauge steel housing (perimeter frame, top, bottom, and cover).
- 18-gauge steel drawer fronts and pull cover.
- 22-gauge steel drawer box structure.

### Security & control

- Interchangeable-core lock on the top drawer.
- Internal interlock: 18-gauge mechanism with 14-gauge cam.

### Smooth operation & load

- LNA 16" metal slides.
- Each drawer supports 20 kg (per drawer).

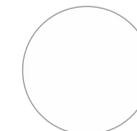

### Assembly & mounting

- Assembled with 3/16" POP rivets, 5/16" insert nuts, washers, and mounting hardware.
- Suspended installation under the worksurface (no floor contact).
